Conformity with Natura 2000 Standard Data Form

The purpose of this document is to check whether the information in the national data delivery is conform to the technical requirements as outlined in the Commission Implementing Decision 2011/484/EU). The list of QA/QC checks performed only covers the most important aspects of data quality, completeness and consistency and should therefore not be considered as being exhaustive.

On the basis of information included in this document, the national authorities are invited to correct and if necessary to resubmit their national databases.

In case of questions please contact: natura2000.helpdesk@eionet.europa.eu.
